

PRODUCT: **Medium Invert**

DESCRIPTION:

A sweet, heavily bodied, concentrated aqueous solution of partially inverted sucrose achieved through hydrolysis. This syrup has greater solubility, lower water activity and greater microbiological stability than a sucrose syrup.

TYPICAL COMPOSITION:

% Solids		76.5 ± 0.5
Invert % (db)		50 ± 5%
pH		5.0 ± 0.5
Ash % (db)	max.	0.1
Color I.U. (pH as is)		40
Pounds per Gallon		11.58

MICROBIOLOGICAL:

Mesophiles	max.	200 cfu/10 g
Yeast	max.	10 cfu/10 g
Mold	max.	10 cfu/10 g
