PRODUCT: Organic Medium Invert

DESCRIPTION:

A sweet, heavily bodied, concentrated aqueous solution of partially inverted organic sucrose achieved through hydrolysis. This syrup has greater solubility, lower water activity and greater microbiological stability than a standard organic sucrose syrup.

TYPICAL COMPOSITION:

% Solids	76.7 - 77.7
Invert % (db)	45 - 55
pH (as is)	3.9 - 4.9
Color	Amber (400 - 1000 I.U.)
Pounds per Gallon	11.58 wet weight

MICROBIOLOGICAL:

Mesophiles	max.	200 cfu/10 g
Yeast	max.	10 cfu/10 g
Mold	max.	10 cfu/10 g
